

**Lights**  
**Road 122**

I woke up today  
With the big desire to let go  
All my problems  
  
And it probably means  
That I will have to kick someone's butt  
I cannot wait

Then on my way I found you  
I'd stay with you forever  
But I decided to go away

No matter if we'll meet again  
Don't care to look at the phone  
We're still living under the same lights

Even if you know the way  
Always keep one foot next to the brake  
And live as if you will never die

I wanna see where the sun hides  
Without worrying about who awaits me  
Without knowing if I'll get home tonight  
Without thinking about the future

Wherever I go  
Alone or with you  
Try to understand me  
Now I think to myself  
There's always time to stop  
So now I don't wanna wait for someone again

No matter if we'll meet again  
Don't care to look at the phone  
We're still living under the same lights

Even if you know the way  
Always keep one foot next to the brake  
And live as if you will never die

No matter if we'll meet again  
Don't care to look at the phone  
We're still living under the same lights

Even if you know the way  
Always keep one foot next to the brake  
And live as if you will never die
